Tuba & Euphonium Fly Vault:

Unitec Diamond Plate Tuba & Euphonium Vaults are the **PERFECT** Solution for the traveling professional musician. We know that your horn is your pride and joy and that a Unitec Fly Vault is your best choice for air and road transport. Our hybrid vault is manufactured from Diamond Plate Aluminum and ABS with heavy duty hardware. The vault is designed to **TRANSPORT YOUR INSTRUMENT IN A GIG BAG** which enables you to leave your vault with airport storage or at the hotel and go on your way with your horn in the gig bag! This vault will last a lifetime – you'll only need one!

T-VAULT

Unitec Double Duty Multi Cases – Storage and Transport "All in One Case":

When the Band is organized, transport becomes fast and easy!

Unitec Multi Cases feature hybrid Diamond Plate Aluminum & ABS interlock construction. Multi Cases have heavy duty 4" casters and individual bins for every musician. They are custom designed to fit multiple instruments: trumpets, trombones, baritones, mellophones, all woodwinds, percussion and accessories. Our Multi Cases provide convenient storage and transport ALL IN ONE CASE! Roll Multi Case into your band room for easy access and storage all year long. **When it's time to move** your instruments are consolidated, organized and ready to go. Put the lid on your Multi-Case and **Roll 'em** onto the truck or bus. Band Directors love Unitec Multi Cases since they deliver the ultimate in protection and convenience and greatly **REDUCE MOVING TIME AND STRESS!**

Introducing Unitec Tuba, Sousaphone, Multi Cases and Travel Vaults.

The most durable transport products in America.

Unitec offers (3) styles of cases: "Road Tuff", Diamond Plate and Fly Vaults. Our Road Tuff products are usually sold to high schools and our Diamond Plate to colleges and military. The Fly vaults are sold to professional traveling musicians.

UniTec Diamond Plate TUBA and SOUSAPHONE CASES ARE VIRTUALLY INDESTRUCTIBLE and are designed to last 25 years +. Our Road Tuff cases are also super tuff and far superior to thermoformed or molded cases. We are the only company that offers a sousaphone case with a floating shelf design which provides the ultimate protection and is great for on the field set up. All Unitec cases are stackable and easy to move.

UniTec Multi Case – Cuts your load times by 75% and takes the stress out of transporting the band.

Music directors absolutely love Unitec Diamond Plate MULTI – CASES. Our double duty multi cases can be set in the band room and used for storage all year long. When the band hits the road you simply put the doors on and roll out. Multi cases feature numbered storage compartments for each band member. Multi cases take less space, organize the band and save hours of on and off load time.

DP Vaults are designed to transport the instrument in a gig bag.

Unitec's Diamond Plate Sousaphone cases are stackable!

Multi-Cases enable you to transport the whole band using less space and effort.
